Work Experience

Ciber Global, LLC   August 2013 - Present
Front-end Web Development
Assist in website construction, maintenance, and content formatting in HTML, CSS, JavaScript, and JQuery.
Develop and maintain marketing solutions within content management systems such as TeamSite and EpiServer.
Maintain daily and sometimes hourly communication with clients and teammates during critical development cycles.

Redd Scientific - Anatomy & Physiology   April 2013 - August 2013
Application Development
Developed concepts for an interactive game to educate college-age students about the circulatory system.
Produced playable demos for testing.

Carnegie Learning - Math Wonders   January 2013 - June 2013
Project Management
Led a team in developing math-based minigames for high school students. Organized and facilitated updates
and documents. Kept regular contact with client and remote team members.

KL Learning, LLC   April 2012 - December 2012
Application Development
Designed and developed an iPad application specifically for autistic children. Built playable minigame demos.
Assisted in the creation of a companion web-based tracking system, including extensive database structure.

Art Expression, Inc.   October 2012 - December 2012
Concept Design
Developed concepts for an interactive display to educate elementary-age students about Pittsburgh bridges.
Conceptualized a companion iPad game to be set into the display.

Walgreens   August 2010 - September 2013
Photo Specialist
Printed, processed, and assembled customer photo media. Aided customers in the creation of personalized
products. Handled payment transactions using a point-of-sale register. Maintained processing machines
and respective chemicals.
